500 EL CAMINO REAL, SANTA CLARA, CA , 95053 - 3058  
+1 6692736077 oyildirim@scu.edu [onurburak.com](http://onurburak.com) || [github.com/onurburak9](https://github.com/onurburak9)

*A customer-focused, quality-driven, articulate and can-do Javascript Full Stack Developer with 3 years experience in designing REST web services, modern web architectures and developing responsive interfaces, web applications and microservices. Strong design and integration problem-solving skills. Developed award-winning projects fully or partially for creative campaigns in both mobile and desktop web applications. Interested in building large scale web application and React / React Native projects.*

## EDUCATION

**Santa Clara University, School of Engineering**, Santa Clara, CA  
**Master of Science in Software Engineering**

**Mar 16' – June 18'**

Courses: SW Quality, Assurance & Testing, SW Architecture, SW Engineering, Web Architecture, OO Analysis and Design, AI, Advanced Web Programming

**Sabanci University, Faculty of Engineering & Natural Sciences**, Istanbul, Turkey  
**Bachelor of Science in Computer Science and Engineering (50% Tuition Scholarship)**

**2010 – 2014**

Courses: Algorithms, Database, Network, OS, Programming Languages, Distributed Systems, Software Engineering, Logic

## WORK EXPERIENCE

**Freelance Full Stack Software Developer**

**Jan 16' - Present**

- Working on web applications for personal projects and international clients by using Node.js/Express/MongoDB and AWS.
- Developed remote-control car over the cloud and streamed the car camera by using AWS to communicate ESP8266 for personal project.
- Building websites and web applications for international clients, developed individual modules for already existing structures.
  - **Baby2Go** - development of user interface
  - **Nash Dashboard** - admin panel for apps developed by Epcsh

**Software Engineer, Mobilike**, Istanbul, Turkey

**June 15' – Jan 16'**

- Designed and implemented rich media contents, API integration, microsites and web applications using HTML5 / Node.js / Express / MongoDB / AWS that reach target audience with Seamless SDK.
- Built projects for 10+ clients such as Samsung, Gillette, **Mediamarkt**, ING Bank, Rexona
  - **Samsung Fill The Banner** : a drawing contest that I worked as the Full Stack Developer, used as a mobile advertisement , is interacted by 100k users and seen by 1.5m unique users during one month campaign and it won ~10 prestigious awards.

**Front End Developer, Pixelplus Interactive**, Istanbul, Turkey

**Nov 14' – June 15'**

- Worked on cross-browser development of front-end part for microsites, responsive websites and rich media content using HTML, CSS, Javascript, JQuery and CMS.
- Built web projects for 7+ clients such as Garanti Bank, Volkswagen, Intel, Denizbank .
  - **Bonus Card** is the main website that I implemented independently for Turkey's second biggest private bank called Garanti's most used credit card. It has its own CMS and inform people on campaigns, discounts and application process.
  - **FastPay** is the main website for Denizbank's new mobile payment system. It has over 30+ pages coded single handedly by using frontend technologies and open source libraries.
